SYMPOSIUM AGENDA

AI Fundamentals

Build a clear understanding of what AI is—and what it isn't. Learn how it works, where it applies, and why it matters for animal health professionals today.

Using AI in Your Daily Work

Discover how to use AI in your daily work—from drafting and research to data analysis, meeting prep, and workflow optimization.

Risk & Responsibility

Understand key considerations including data privacy, accuracy, hallucinations, and ethical use to ensure safe and compliant adoption.

Future of AI in Animal Health

Explore emerging tools like AI agents and what's coming next—so you can stay ahead.

9:00	AI Literacy Fundamentals
9:30	AI in Daily Work
10:30	Networking Break
